## **RECYCLING -FAQ**

Q) Can I put my recyclables in plastic bags?

A) No, keep recyclables unbagged and loose in your recycling container. Plastic bags damage recycling machinery causing facility downtime and also contaminate the recyclables. Plastic bags may be recycled at many large retail outlets.

Q) Where can I get a new/replacement recycling container?

A) The Village does not provide containers at this time. Containers may be purchased at home improvement stores.

Q) Should I place my recyclables at the curb on very windy days or if a storm is forecast?

A) Recyclables that blow around the neighborhood are litter. Precipitation may reduce the value of paper and cardboard recyclables. Use your good judgment on whether to delay putting out your recyclables for collection.
