To Whom It May Concern:

This letter is to request permission for Empire Solar Solutions to obtain a solicitation permit for the Village of Buchanan. We are a local, residential solar company who have been in business since 2015. We are looking to canvass the surrounding neighborhood to qualify homes to go solar! We would like permission for 3 sales representatives to be approved to conducting business during the hours of 12 pm to 6 pm from Monday-Saturday, not frequenting the area more than 2 times a week.

We are also open to altering our hours and any restrictions you would see fit. For more information regarding our company, please feel free to visit our website at:
