

FROM THE DESK OF

Josue Narcisse

September 18, 2022

Cynthia Kemper
Village Clerk, Treasurer
236 Tate Avenue
Buchanan, New York 10511

Dear Cynthia,

As per town guideline, I am writing you to request a solicitors license allowing door to door solicitations of the residences of the village of Buchanan.

I am a sales manager with Sunrun, a solar energy company. My current assigned territories include the town of Cortlandt and its villages and hamlets as well as the village of Buchanan.

The scope of my work, as a sales manager, will only include the creating of new customer accounts. My work in my assign areas begins in October of 2022 - October of 2023. My hours will generally be from 10am - 7pm Monday - Saturday.

If the client decides to formerly proceed with Sunrun as their clean energy provider, Sunrun corporate will apply for all permits with the village for all scope of work relating to solar panel installation, electrical work and the local utility (Con-Ed) permission to operate.

Sunrun is the largest renewable energy company in the US. We are a publicly traded company (listed name: run).

Sunrun, inc, engages in the design and development, installation, sale, ownership and maintenance of residential solar energy systems. It sells solar service offerings and installs solar energy systems for homeowners.

More information can be found at our company website at www.sunroom.com

If you have any additional questions, please feel free to reach me by email or phone.

Sincerely yours,

Josue Narcisse
Sales Manager
Sunrun, Inc.
